NEWARK, OHIO, MONDAY EVENING, APRIL 30, 1906.

TEN CENTS A WEEK.

SLOW WORK OF FINDING JURY

Trial of Geo. Collins Begins in Judge Seward's Court Monday

FIRST DEGREE MURDER CASE

TRIAL GROWS OUT OF KILLING OF HOMER LOAR IN DECEMBER

Second Verdict Issued Monday Afternoon in the Work of Securing Twelve Jurymen.

The work of selecting a jury in the George Collins murder trial consumed all of Monday. The original venire was exhausted and a second one issued. The taking of testimony will probably not be commenced before the middle of Tuesday forenoon.

Even during the selection of the jurymen the court room was crowded, and it is expected that large crowds will be attracted as the case progresses.

Prosecutor J. R. Fitzgibbon and T. B. Fulton appear for the State while the attorneys for the defense in the case are Smythe & Smythe and Mr. Webster of Toledo.

At 2:30 p. m. Monday the following men were in the jury box: Geo. Davidson, Hartford twp.; John McCracken, Hopewell; John D. Lloyd, St. Albans; John Day, Harrison; Henry Evans, Bennington; Jacob Kreegar, Hopewell; Murray Johnson, Liberty; Frank R. Dunn, Bowling Green; Charles Barriek, McKean; David Watkins, Granville township; James M. Crawford, city, and F. F. White, Bennington.

When court convened Monday morning, the work of selecting a jury to try the case of George Collins was begun. Collins is being held on a first degree murder charge in connection with the shooting of Homer Loar of Hanover, a non-union polisher, employed at the Wehrle stove foundry during the strike of polishers.

Homer Loar, aged 38, was shot and almost instantly killed on the night of Thursday, December 21, shortly before 5 o'clock, within a few hundred yards of the big Wehrle plant.

Mr. Loar was with six other men and all were going to work, being employed on the night shift. Three of the party were new men, never having been at work at the polishing room. These men, Fred Lake, Frank Crown and Harry Willey, all returned to their homes without going to the foundry. The other men, Joe Priest, Frank and Harry Jenkins, went into the foundry and worked all night.

It was not known at the time, just who composed the party which attacked the working men. However, on the day following the murder, an affidavit was filed in the mayor's court against F. A. Gobel, Richard Olen and William Brockford. The affidavit was signed by Charles C. Loar, a brother of the dead man. Later Hugh Taylor and Andrew Harter were arrested.

On December 27 Frank J. Loar, another brother of the deceased, filed affidavits in "Squire Lake's" court against Robert Heninger, George Raab and George Collins, charging first degree murder. Aside from the arrests on this charge, the criminal docket in the mayor's court shows four times that he was arrested on other charges, not long before this one and the criminal docket in "Squire Lake's" court shows one other charge against him. Some of these were on the charge of assault, and others charged him with pointing firearms.

The Loar murder is the case which excited public interest especially as a fund was raised by the business men of the city of Newark with the aid of the neighbors of the murdered man and the citizens of Hanover, with which to purchase a home for the widow of Homer Loar.

MURDERER LYNCHED

Juka, Miss., April 20.—A negro giving his name as Will Brown was captured at Rienz, Miss., and hanged from a railroad trestle after an impromptu trial. He confessed having killed W. J. Johnson.

The art collection of the late Joseph Jefferson was sold at auction at New York, a total of \$229,135 being realized.

GOLL CONVICTED IN MILWAUKEE

Former Assistant Cashier Found Guilty on Nineteen Out of Thirty-Four Counts.

Milwaukee, April 30.—Henry G. Goll, former assistant cashier of the First National bank of this city, was found guilty by a jury in the United States district court on 19 counts out of 34. The counts in the indictments against the defendant on which he was found guilty relate to false entries and the misapplication of funds in the bank, those relating to embezzlement and telegrams being thrown out. The verdict was reached by the jury after a session lasting eight hours. The amount of money which Goll was alleged to have misapplied was about \$250,000. Mr. Goll was unmoved by the verdict, and referred all interviewers to his attorneys. He was remanded to the custody of the United States marshal. Attorneys for the defendant at once made a motion for a new trial.

RUMOR SAYS COUNT WITTE HAS RESIGNED

(Bulletin.)
London, April 30.—A St. Petersburg dispatch today says it is reported that the Czar has accepted the resignation of Count Witte as premier.

OFFICIALS CONDEMNED

Grand Jury Says Springfield Authorities are Ignorant.

Springfield, O., April 30.—Police officials, the mayor, the sheriff, and, indirectly, the prosecuting attorney, were condemned by the grand jury on Saturday afternoon in the most sensational report ever submitted in the county for their remissness in the recent race riots.

The jurymen declare that all have been guilty of amazing ignorance, passiveness and misconception of duty, the efforts that were made being characterized as ridiculously futile. It recommends the dismissal of the greater part of the police officers and a large number of patrolmen, who are named.

THEORY

Of Dr. Osler Disposed by Professor Thiry, Who Becomes Father at the Age of 85.

New York, April 30.—Prof. John H. Thiry of Long Island City, who for half a century has been identified with the educational interests of New York City, and who has been known as the "father of the school savings banking system," became the father as well Saturday of a lusty baby boy. Considering the fact that Prof. Thiry is in his eighty-fifth year and that he went on record a year ago as one of Dr. Osler's unrelenting critics, the birth of a son and heir in his household has brought forth a volume of congratulations.

Mrs. Thiry is 30 years old. Nine years ago, nearly six years after Prof. Thiry had commenced to live on borrowed time, and 40 years after the community had slated him to pass his life in single blessedness, the startling announcement was made that the professor had taken a wife. The bride was Miss Margaret O'Connor, aged 21.

Prof. Thiry, who is wonderfully well preserved for his years, is a man of very regular habits. At his home, at No. 181 Academy street, he has extensive grounds and raises flowers and vegetables for pleasure and profit. Great quantities of the finest grapes are grown in his vineyard, and casks of home-made wine are lined up in his cellar. He never tires of extolling the virtues of home-made grape wine as an aid to good health.

EVIDENCE BURNED

Men Held in San Francisco on Charge of Swindling May Go Free.

San Francisco, April 30.—Detective Gibson of the police force here, said yesterday that the fire destroyed practically every bit of evidence against Jacob Herman Eppinger, accused of swindling banks out of \$788,000 by borrowing money on fictitious wheat certificates. The second trial of Jacob Eppinger was set for Wednesday, April 18. Detective Gibson said the Eppingers would probably now go free.

FOOTBALL FATAL

St. Louis, Mo., April 30.—A martyr of the gridiron passed away last night when Samuel B. McCully, 17, died from injuries sustained in a football game more than a year ago, when he was a member of the Central High school team. Until the last McCully refused to tell how he got hurt. He only revealed it when physicians told him his condition was serious.

DOWIE SPEAKS IN ZION CITY

He Denies All the Charges Made by His Traducers.

PAYS A TRIBUTE TO HIS WIFE

Overseer Voliva Holds a Rival Meeting, Five Thousand Residents of Zion City Being Present—First Apostle Attired in a Robe of White and Gold and is Carried to Platform.

Chicago, April 20.—Before an audience of about 2,500 persons in Zion tabernacle, John Alexander Dowie, his voice strained to its utmost capacity, charged his traducers, if any were present, to rise to their feet and make their accusations before the whole congregation. The followers of Voliva, the new leader of Zion, however, were at that moment attending a rival meeting set for the same hour at the Zion college building, a quarter of a mile distant. There five thousand of the city's inhabitants were gathered together with the famous choir, now devoted to its ecclesiastical garb, and the Zion band orchestra. Those who listened to the words of Dowie were for the most part visitors from other towns, brought in by the hundreds by the electric cars and railroad trains. Dowie was borne bodily by two stalwart negroes from an anteroom up the stairs to the platform and deposited upon his feet before the elaborate prayer altar. He was attired in an apostolic robe of white and gold and purple which he had never worn before in public. Upon his head was a turban of marvelous pattern embroidered in purple and gold. He delivered his address and sermon seated before the altar. Only occasionally when roused to an unusual pitch of earnestness did he rise to his feet. Mrs. Dowie, who has severed her allegiance with the Voliva faction, sat in a wicker chair among Dowie's followers in the congregation.

Doctor Dowie prefaced his sermon by a spirited denial of the charges that have been brought against him, in the course of which he exhibited much of the fiery impetuosity which marked his discourses in times past. "They say I've taken the people's money, do they?" he shouted. Answers of "Yes" and "No" came from different parts of the audience. A man in the rear, more persistent than others, was singled out, Dowie saying: "Let that man stand up and give his name. Let him tell what money I took and when." With all eyes focused on him the man shrank in his seat. A guard was ordered to compel him to stand, but he stood in shame-faced silence. Then it was that Dowie rose to his feet and demanded that any of those present who had anything to charge against him to do so then and there. With tears in his eyes he described the sorrow he felt upon receiving the news while in Mexico of the revolt among his people. He declared that he could not sleep until he had learned the worst, and that his cup of grief was full when he found that his wife and son had deserted him. Then he paid a tribute to Mrs. Dowie, saying she had been misled.

GOVERNOR IMPROVING.

Cincinnati, O., April 30.—Governor Patterson is resting as well as could be expected today, and the steady improvement in his condition is still being noted by the physicians who intend to await complete recovery before sanctioning his removal to Milwaukee.

PRESIDENT MAY PREVENT STRIKE

Intimations are Heard Today That He May Intervene at Last Moment

IS INFORMED OF EVERY MOVE

HOPE FOR PEACE HOWEVER IS NOT YET WHOLLY ABANDONED

Public Thinks Point of Difference Too Small to Let 160,000 Men Strike.

Wilkesbarre, Pa., April 30.—Intimations are heard today that President Roosevelt will intervene at the last moment and prevent the bitter hard coal strike which impends, because the two sides have been unable to agree as to method and application of arbitration to the only question of difference, increased wages.

Mr. Roosevelt has been kept informed of every move made and when he sees that a strike is inevitable it is said he will interfere and in a joint note to the operators and miners point a way by which both sides may meet on a common basis of understanding as to how the arbitration shall be applied to the question of wages.

Hope for peace in the region has not been abandoned, though some plain talk is heard on every hand that the operators are determined upon a strike, but are discussing their move with the hope that their purpose will be befogged in the public eye.

Pres. Mitchell has made no statement about the situation since Saturday. Briefly the only point of difference today between the miners and operators is this: That the operators are willing to submit to the strike commission the question whether any changes in conditions have occurred since the award of the commission requiring that the award should be so modified as to wages, while the miners are ready to arbitrate the question of wages outright without as they say first arbitrating to ascertain whether there is anything to arbitrate.

The miners say the operators are insincere, and vice versa. The general public thinks the point of difference too small to cause 160,000 men to go on strike for a struggle that may be bloody as it will be bitter. Meanwhile, pending the Scranton convention Thursday word from Washington is anxiously awaited.

WM. J. BYRAN IS IN PALESTINE

Jerusalem, April 30.—William J. Byran, who is visiting Jerusalem in the course of his tour of the world, addressed a special message in the tabernacle to the Christian missionary alliance. He spoke for seventy minutes with captivating eloquence on the life of Christ and his teachings and expressed astonishment at the small proportion of Christians in America and Europe visiting the Holy land.

PARIS READY FOR MAY DAY

Officials Believe Precautions Taken Will Insure Quiet.

TROOPS ARRIVE AT CAPITAL

Seven Thousand Employees of the Municipal Gas Plant Resolve Not to Strike—Minor Clashes at Several Points—Declaration of the Government.

Paris, April 30.—In a speech delivered here, Premier Sarrien gave warning to the disorderly element that the government purposed dealing firmly with any outbreaks on May 1. This is the first speech the premier has made in the course of the electoral campaign, and it dealt with all kinds of questions; but the principal interest attaches to that portion of it giving the government's attitude toward the menacing labor situation. "The first duty of a government worthy of the name," said M. Sarrien, "is to insure order in the streets and freedom to work without interruption. We are resolved to apply the law without passion and without weakness to all disturbers of the peace, whoever they may be, whatever names they assume or whatever the end they seek."

The races were abandoned Sunday on account of the police staff being engaged in Paris and the national museums also were closed.

The city is assuming a distinctly military aspect. Military patrols have not yet been established, but soldiers of duty through the boulevards. Special trains continue to bring in reinforcements.

There were two further abortive attempts at outrages on the western railroad property. Shortly after midnight a gang of suspicious looking men approached the Colombar viaduct. The sentry heard drilling and rattled his rifle and the men rapidly retreated. Later drill holes were found, but no explosives. About the same time the driver of a locomotive discovered that the track had been blocked with large stones about a mile from Argenteuil. Slight damage was done to the engine.

After a meeting of printers a disturbance between strikers and non-strikers took place, in the course of which a non-striker shot and seriously wounded a striker in the abdomen, and another man lost an eye. The striking jewelers created disorders outside the establishments that are continuing to operate by endeavoring to induce the men who remain at work to join the strike.

Minister of the Interior Clemenceau is positive that the military and precautions taken will insure quiet. "The measures we have taken," he said today, "will easily insure the maintenance of order throughout every section of the city. Our reports satisfy us that the day will pass without serious incident."

LATEST FEMININE FAD

COSTS \$150 TO \$1500.

New York, April 30.—If women wish to have the very latest things in jewelry they must get a bangle bracelet set with diamonds. At least that is the verdict of the smart jewelers here. The bangles have for a foundation a strip of platinum, which is set with diamonds so close together that one can see nothing but the band of brilliant stones. Of course, one must have a few loose bills to spare to buy one of these trifles, for the cheapest of them costs \$450, while from that figure they run up to \$1500.

SHOWERS OF MUD FROM VESUVIUS

In One Town Flood Obstructed Doors So People Had to Escape Through Windows.

Naples, April 30.—The weather in the region of Mount Vesuvius is good. Reports that are coming in concerning the latest disaster show that the damage done by the torrents of mud washed from the mountain side by the heavy rainfall of last week was great. The mud, mixed with which were cinders and basaltic stones, invaded all places and killed many animals. At Passosano, a town of 800 inhabitants, the flood obstructed the doors of houses so that the people were obliged to escape through the windows. The Duchess of Aosta braved the dangers and went to Ottaviano in order to ascertain the extent of the damage done by the mud. King Edward and Queen Alexandra have been unable to make their desired visit to the royal observatory on Mount Vesuvius.

ERICH MUENTER IS IN CALIFORNIA

Sister Becomes Hysterical When Informed of Murder Charge Against Brother.

Cambridge, Mass., April 30.—The developments in the case of Erich Muenther, the Russian instructor in German, who is wanted by the Cambridge police in connection with the recent mysterious death of his wife, had not included the apprehension of the man wanted. It was learned by the police, however, that Muenther visited his mother and sister in Monrovia, Cal., shortly after he left Chicago, April 20. Miss Bertha Muenther, a sister of the instructor, arrived in Cambridge from Chicago and went directly to the Muenther home in Oxford street. She rang the bell and was answered by two police inspectors who were in possession of the house, and a student, E. E. Bryant, who had rooms in the house. The inspectors informed Miss Muenther of the charge of murder preferred against her brother, and it is said that the young woman became hysterical.

BRIDEGROOM 81 BRIDE ONLY 17

NEITHER HAD SEEN THE OTHER UP TO THE TIME OF THE CEREMONY.

The Old Man's Wealth May Have Had Something to Do With the Match.

New Orleans, La., April 30.—A peculiar marriage is reported from Arcadia, La., in which the bridegroom was 81 years old and the bride 17. Jos. Burkett, a wealthy planter, told a number of his friends that he was anxious to marry again and they promised to secure a wife for him. Miss Helen Dye, a school girl, was told and volunteered to care for the old man for the remainder of his days. She was taken to his home, a minister was summoned, and within an hour the ceremony had been performed. Neither of the contracting parties had seen the other up to the time of the marriage.

SUDDEN DEATH OF EX-MAYOR MADER

Chillicothe, O., April 30.—John G. Mader, aged 44, mayor of Marion, O. for two terms, died of apoplexy at the home of his sister here at midnight. He came here at 10 o'clock last night to visit relatives, returned immediately and soon after was found unconscious.

HENRY CLARK ROUSE DIED AT CLEVELAND

Cleveland, April 30.—Henry Clark Rouse, millionaire railroad owner and club man, died this morning at his home on Euclid avenue from double pneumonia after an illness of about two weeks. He lived much of the time in New York and was a frequent visitor in Kansas City and the West.

CHARGES AGAINST DOWIE

Zion City, April 30.—Overseer Voliva today submitted to Dowie a typewritten document containing specific charges of Dowie's polygamous teaching, immorality, extravagance and misappropriation of funds.

W. C. Culkins, Reform Republican, a newspaper writer, was appointed by Mayor Demery to be city auditor of Cincinnati, vice W. T. Perkins, deceased.

ARRESTED ON SERIOUS CHARGE

Three Men Accused of Plot to Overthrow French Republic

MANY HOUSES ARE SEARCHED

ARRESTS OF KNOWN BONAPARTISTS AND ROYALISTS IMMINENT

M. Levy Head of Labor Federation One of Men Put Under Arrest Monday.

Toulon, France, April 30.—A strike of the employees of the tramway system was declared today.

Brest, France, April 30.—Socialist leader M. Bresvoles was arrested here today in connection with the alleged plot against the government.

Paris, April 30.—The peaceful manner in which Sunday passed has considerably reassured the people generally as to the prospects for May Day when so much trouble has been threatened. Precautions have been taken by the authorities to prevent disorders in the demonstration tomorrow. Reinforcements are still pouring into the city. It is intimate that 10,000 soldiers are now here while more are coming all the time. Large halls where the revolutionaries generally hold meetings have been requisitioned as supplementary barracks. There is a feeling of relief in the city at present, but it is impossible to predict what tomorrow will bring.

Paris, April 30.—M. Griffuelles, socialist leader and secretary of the labor confederation and Xavier Foulant, Bonapartist, were arrested this morning for alleged connection with a plot to overthrow the republic. The fact that Griffuelles has been coupled by the authorities with the Bonapartist Foulant has aroused a storm of indignation in the labor party, which until now has been a staunch supporter of the third republic as opposed to monarchism, and resents the slight upon the party's good faith. M. Levy, head of the labor confederation, was also arrested and the houses of many labor leaders were searched by the authorities today. It is stated that many other arrests of known Bonapartists and Royalists are imminent.

METHODIST CHURCH

Quadrennial General Conference Convened Next Thursday in Birmingham—Important Meeting.

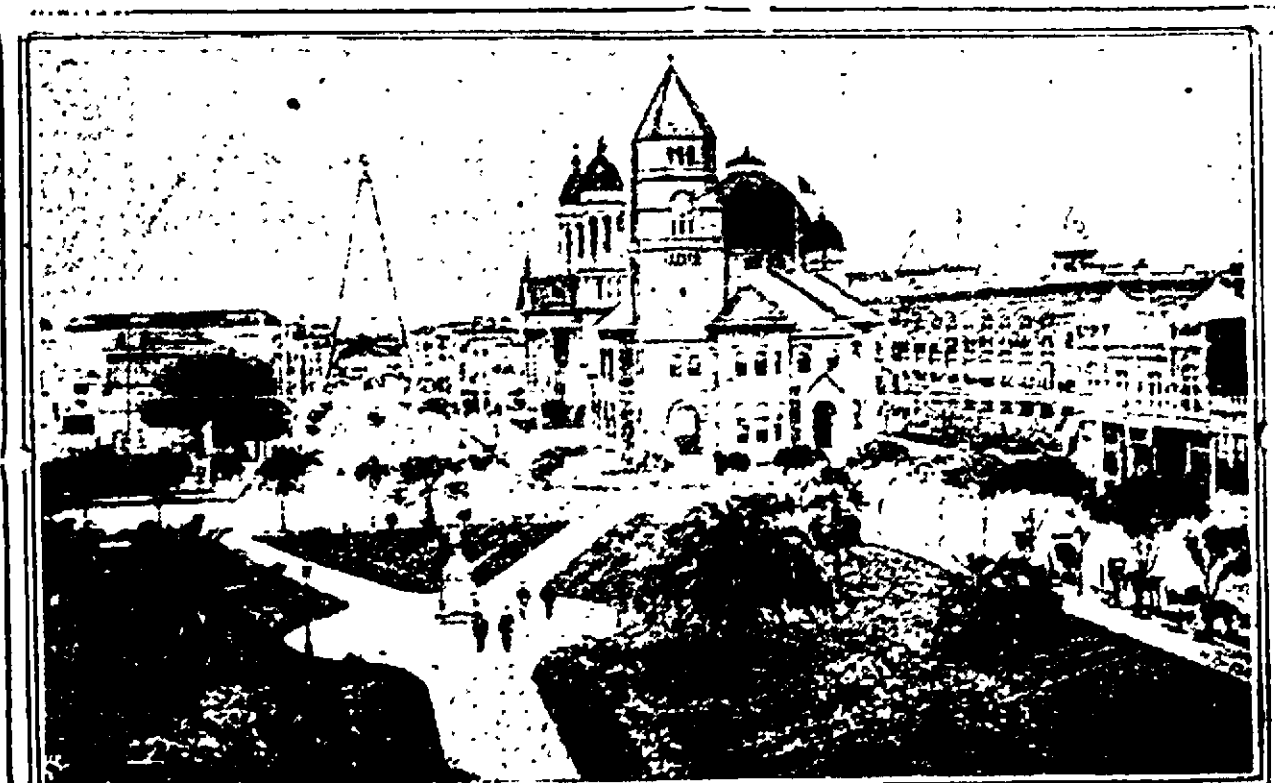

Birmingham, Ala., April 30.—The quadrennial general conference of the Methodist Episcopal church, south, convenes in this city Thursday next and promises to be one of the most important in the history of the denomination. In addition to the accredited delegates, between 800 and 1,000 visitors are expected. One of the fraternal messengers will be Vice President Fairbanks from Methodist Episcopal church, north, and Dinahale T. Young of London, representing the Wesleyan church of England. The general conference will be in session about three weeks and among the important matters to be considered are the following: The establishment of a university for women in the south to be supported by the church; a change in the present presiding eldership system; institutional churches. It is probable that two or more bishops will be elected because of the growth of the church.

STRIKE BEGINS AT 12.
Detroit, April 30.—At midnight tonight a strike that will tie up about 10 per cent of the freight traffic of the Great Lakes will be inaugurated in an effort to force the lake carriers' association to recognize the lake pilots' protective association.

MANY WERE HURT.

Mount Carmel, Pa., April 20.—Details of state constabulary after battling in the street with a frenzied mob, had a second collision this noon, when stones were hurled at the troopers. The detail discharged a volley and many were hurt.

EARLY PHOTOGRAPH CAUGHT THIS PICTURE.

City Hall Park and Post Office, San Jose.

YOUNGSTOWN GAME
THIS AFTERNOON

NEWARK WON TWO OPENING GAMES

SNYDER WAS
SUNDAY'S STAR

O. & P. LEAGUE'S GRAND OPENING

Newark Shut Out Sharon In
First Game at Wehrle
Park Saturday

STONE PITCHED SUPERB BALL

ZANESVILLE DEFEATED NEW CASTLE
WHILE AKRON WON FROM
LANCASTER IN FAST GAME

Youngstown at Mansfield Had an Easy
Time Winning From Mansfield
by 7 to 2 Score.

Before a crowd of five hundred people at Wehrle park Saturday afternoon, Mayor Samuel H. McChesney took a sparkling ball from Umpire Tom Bannan's hands and formally opened the O. & P. season in Newark by striking the first ball across the home plate. The Mayor is not a professional pitcher and it has been a good many years since he played first base. His team in Pennsylvania. However, the ball did manage to reach the plate before it hit the ground. The season was open and Umpire called "play ball."

Men just how the game is played in Ohio and when the final count was made, Frank Yoho's men were down and out to the tune of 1 to 0. Pitcher Bates, who by the way, is no relation to Manager "Cotton," was also in good condition and he probably thought that his meal ticket was in danger of being cancelled and therefore decided it necessary to put forth his best flick. This he did and the heavy hitters on the Newark team were unable to connect safely.

Stone started the ball rolling just right by striking out the first batsman, Ferguson. Clevor, who by the way is just as clever as his name, got a clean single and went to second when Drake fumbled the ball in center field. It bounded badly and was a hard chance. The next man walked but a strike out and a cleanly fielded ball following retired the side without a score.

Newark tallied the first score in the third inning when Wratten went to first via the Big Four route and pilfered the second sack. Stone neatly sacrificed and Wratten went to third on a lone fly to right field. It was an easy matter to score on Snyder's long two sacker which went like a bullet through second base territory and into deep center. Drake got the only other hit in the sixth when he came up after one out. It was a neat single to right and the center fielder stole second a moment later, sliding into the base in grand style.

Sharon's only opportunity to score

THE STANDING.

	Won.	Lost.	Pct.
Newark	2	0	1000
Zanesville	2	0	1000
Youngstown	1	0	1000
Lancaster	1	1	.500
Akron	1	1	.500
Sharon	0	2	.000
Mansfield	0	1	.000
New Castle	0	2	.000

*The game Sunday.

came in the third inning and it was the good playing of the team which prevented the awful thing from really happening. Davis booted a bad bounce from Clevor's stick after one man was gone. Kerr's clean single sent him to second and he took third on the fielding of the single while Drake sent the ball to Wratten who returned it to Davis in time to catch Kerr in his attempt to take second. Ulrich's attempt to kill the ball sent it a mile into the air right over the pitcher's box and the catcher was out.

Umpire Bannan at once won the favor of every man in the crowd by his fair and impartial work. He knows the game from the start having been a ball player himself for a number of years. He has been umpiring the game for eight years. He started right and gave all players to understand that one rule of the game would be enforced. Only two coaches will be allowed on the line and no coaching until a man gets on base. Then the third base coach was ordered to keep quiet until the man reached second. The idea is almost a new one in Newark and it was really gratifying to see a man umpiring a ball game who had full control of the situation. Newark enjoyed this luxury for a time last year while Umpire Scott Hardesty was officiating Saturday's score:

Newark—

By Four to One
Score

BATES HAD THREE CLINKERS

SNYDER'S LONG THROW FROM LEFT
FIELD CUT OFF STAMLER'S
RUN

Pitcher Laney Was "the Goods," Get
ting Out of Several Tight Places
With Colors Flying.

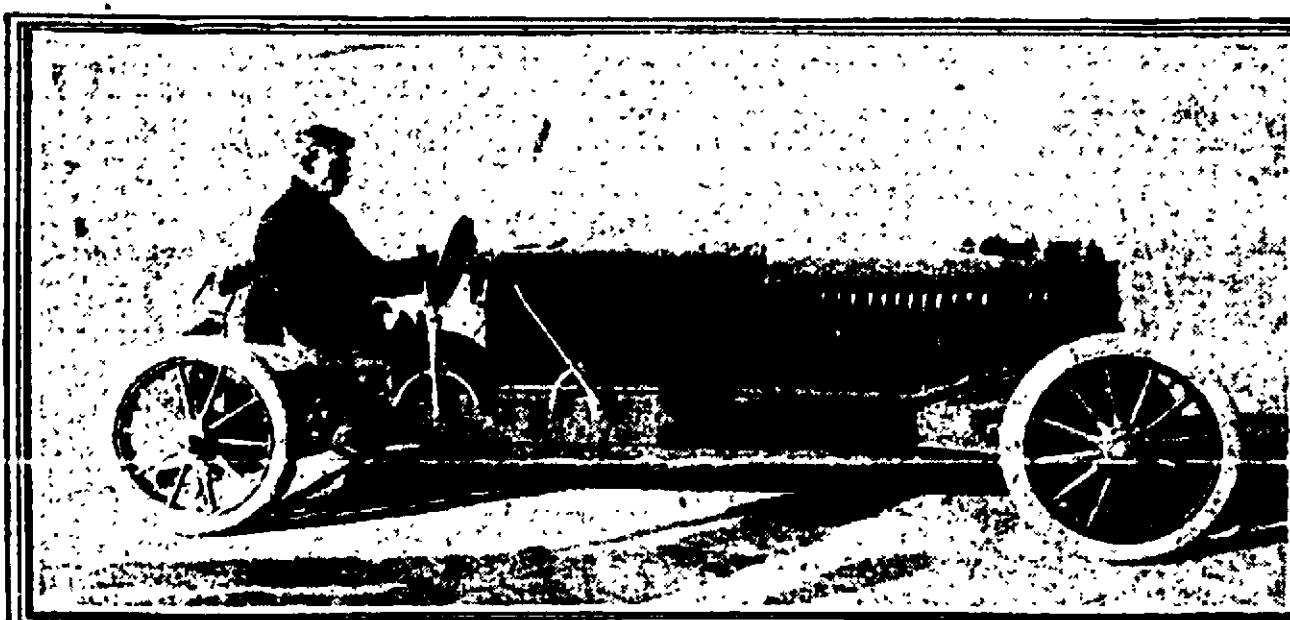

Saturday's winner from Sharon was the one thing which brought out the record breaking crowd at Wehrle park Sunday afternoon for the second game of the opening series also scheduled with Sharon. Saturday's even contest brought the fact forcibly to the fans that Newark had a team which would fight for everything gained or lost and therefore there were over 1500 of the Newark men and women who were anxious to see them at work in a championship contest.

The game Sunday was not a disappointment except in one point of the game. Newark fans were hoping that Manager Bates would be in condition by the time the game opened Sunday to play a fast game at second sack, but such was not the case and after working for seven innings, Bates finally went to the bench and sent Elmer Locke to the second sack where the lad worked like a veteran. Newark won Sunday, which furnished more reason for more delight for the fans. It was a pretty contest from the beginning and with the exception of the errors at second, the contest was a clean one. There were several narrow escapes from scoring and it was Newark's old war horse, Lefty Snyder who prevented the score being four to two instead of what it was.

That sensational hair raising stunt came in the sixth when Snyder fielded Murray's safe hit to left and threw to the plate in time to cut off Stamler who was trying to score from second on the bingle. Stamler was ungentlemanly enough to run into Joe Doyle like a football player, but as drawing room manners and courtesies are not looked for on the ball diamond, the action was excusable. It would not have been so bad had Stamler not returned to the bench and boasted of how he did the trick. He also ran into Bates at second when the latter was receiving Doyle's throw from the plate.

Bates' playing at second was displeasing to the fans. That is to be expected, for several of the chances were easy, and without any effort to pardon the sins of the manager, it

PRINCIPAL WINNER AT ATLANTIC CITY RACE MEET.

WALTER CHRISTIE

Atlantic City, April 20.—Walter Christie and his 110-horse power, Blue Flyer, were again the stars at the second day's meeting of the Atlantic City Automobile club on the Vetnor Beach. With ten thousand spectators cheering him Christie piloted his direct drive machine past the wire scarcely two feet ahead of the Van-

derbilt Cup winner Darracq, driven by Guy Vaughn. Neither car reached record speed, Christie's time being 16 2-5s, and the other a mere trifle more.

The meeting of these two was in the race for heavyweight gasoline cars. The entries included a 60-horse power Thomas, driven by Robinson, and the 30-horse power Napier, driven by Hilliard. In the first heat Robert

zame. Four hits were credited against him, but two were of the scratchiest sort imaginable. According to the rules they could be scored either way.

Snyder's hitting in the two games was excellent. A two sacker Saturday and a three sacker Sunday is a good record. His fielding was also of the highest quality.

Manager Bates states that he will be out of the game for a few days. Last Friday Bates got hit by a swiftly batted ball and he has been in poor shape since, he says. He will take treatments at the Sanitarium until the team goes on the road.

Lillis is slated to work out for today. For Youngstown it will be either Schettler or Kennedy on the slab.

President Morton thinks First Baseman Botenus is the candy man. Botenus played with Morton when the latter was in Buffalo in 1895, and the two were also connected with the Toledo team for several years before that.

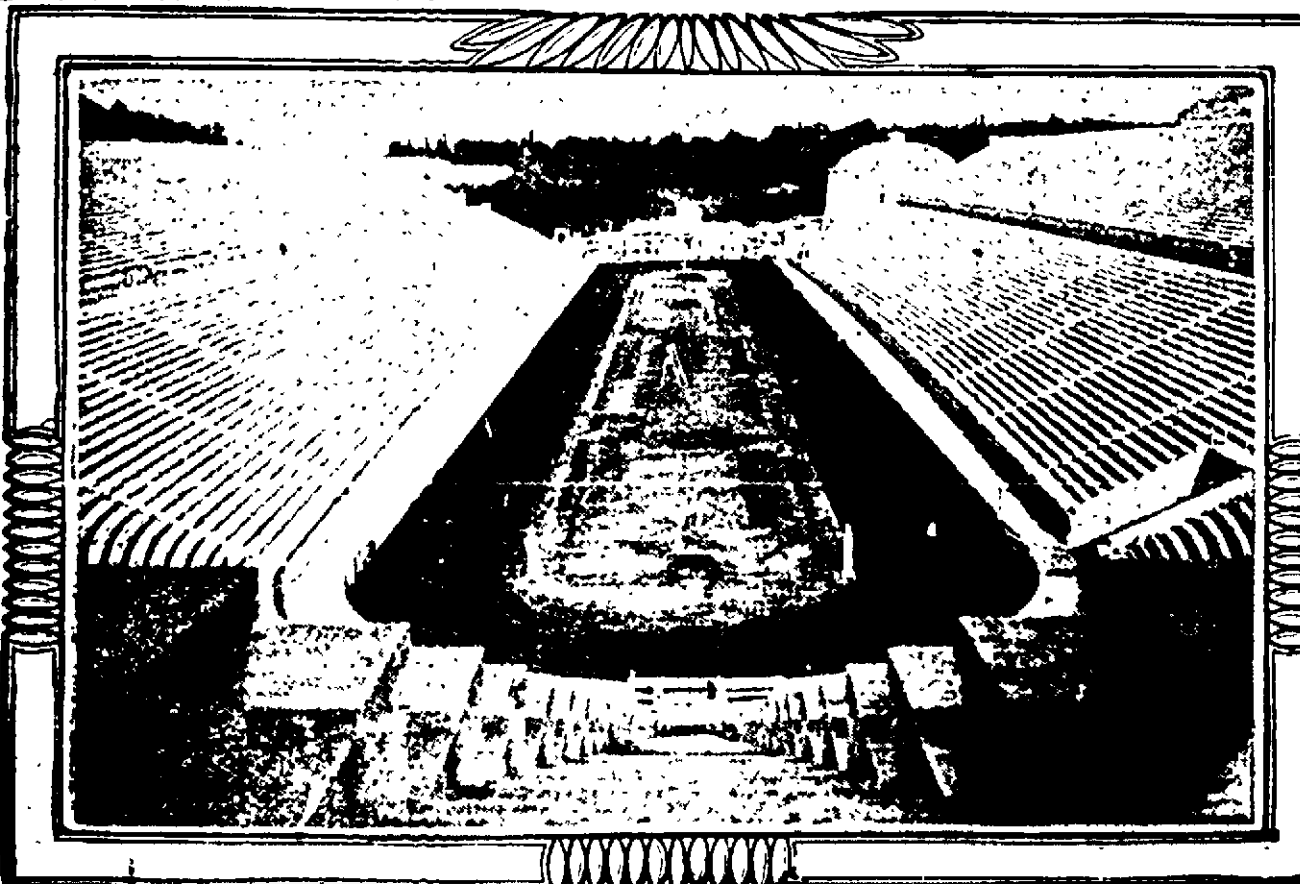

Today is ladies' day at the new ball park, and Newark's fair fans are out in large numbers.

A noticeable feature of Sunday's game was the fact that several hundred people walked to town. Eight cars, enough to accommodate half the crowd, were on hand when the game ended.

Catcher Ulrich got hit on the shoulder with a foul tip Saturday and Stamler was behind the bat Sunday.

Danny Davis won the admiration of the whole bunch Sunday. He caught Ferguson's high fly in the eighth.

OBITUARY

MRS. SARAH NUTTER.

Mrs. Sarah Nutter, aged 71 years,
died Sunday morning at 6 o'clock at
the home of her son, James, residing
at 85 Spring street.

The deceased was born in Richland
county, in 1835, and several years
later came to Newark, being married
to Marlon Nutter of Eden township,
in 1859.

Ten years ago Mrs. Nutter was
stricken with palsy and only last
August suffered a stroke of paralysis,
which, coupled with the fact that she
fell and sustained a broken leg last
January, caused her death.

There remain two sons, James, of
this city, and Felix, residing on the
Stewart farm north of the city.

The funeral was conducted from
the home at 2 o'clock, Monday after-
noon, Rev. J. C. Schindel officiating.
Interment was in Cedar Hill.

MR. FRANK JONES.

Miss Mattie McKinney, who makes
her home with the family of Dr. C. A.
Hatch, 64 North Fifth street, this city
received word that her nephew, Mr.
Frank Jones, had died at his home,
No. 168 North Washington street,
Columbus, on Sunday morning at 11
o'clock after a lingering illness of tu-
berculosis. The remains will be

brought here on the Interurban about
2 o'clock Tuesday afternoon and will
be taken to Cedar Hill cemetery,
where the interment will be made,
short services being conducted at the
grave by the Rev. L. S. Boyce, pastor
of the First Presbyterian church.
The deceased formerly resided with
his parents in Newark, but went to
Columbus about 16 years ago, where
he graduated at the deaf and dumb
school. At the time of his death he
was the head of the book bindery de-
partment in the deaf and dumb asy-
lum. About a year ago tuberculo-
sis developed, since which time he has
made a brave struggle for life, and
slept in the open air on the porch of
his home under a specially constructed
tent. He is survived by his widow
and two children and one sister all of
whom are deaf and dumb, and three
other sisters. He has many friends
in Newark who will regret to learn of
his death.

MRS. CAROLINE DAVIS.

Mrs. Caroline Davis, born in Cleve-
land, O., June 14, 1832, died at her
home, 307 1-2 East Main street, at
7:35 Saturday evening.
Mrs. Davis was an active and
prominent member of the East Main
street M. E. church, where the ser-
vices were conducted Sunday after-
noon by the pastor, Rev. Thomas W.
Locke. The deceased leaves a hus-
band, three sons and one daughter,
Mrs. Pearl of East Main street. The
remains were removed to Cadillac,
Mich., accompanied by Mr. Davis,
where the interment will take place.

GUY J. WESTBROOK.

Guy Jones, son of L. J. Westbrook,
the East Main street grocer, was born
in Newark, Ohio, October 3, 1883,
and died April 26, 1906. The de-
ceased had been confined to his home
for about four months, but did not
take to his bed until about three
weeks before his death. As a student
in the public schools, Guy won for
himself the respect and admiration
of both teacher and fellow stu-
dents. He was unusually well in-
formed for a youth of his years. He
possessed a keen sense of observation
and was of a studious disposition.

In 1904 the deceased united with
the East Main street Methodist Epis-
copal church, since which time he has
been a regular attendant upon vari-
ous services, especially the Sunday
school, this being the last public place
in which he was seen before his death.

The mother of the deceased pre-
ceded him to the other world June 5,
1902. He is survived by his grief
stricken father, one brother, Nary,
one sister, Inez, five half brothers, E.
E. J. L. A. A. P. L. and W. E.,
and one half-sister, Mrs. Theodore
Klecker, all of this city.

Funeral services were held Satur-
day afternoon at 2 o'clock at the fam-
ily residence, 318 East Main street,
conducted by his pastor, Rev. T. W.
Locke, and interment was made at
Cedar Hill cemetery.

The bereaved family hereby desire
to express their profound apprecia-
tion of the numerous manifestations
of sympathy on the part of neighbors
and friends in this time of their deep
bereavement.

Clean back yards tomorrow.

Letter from Mr. Armstrong.

Mr. B. F. Armstrong received a let-
ter Monday from his son, Jesse Arm-
strong, who is holding a good posi-
tion with the Union Pacific railroad
with headquarters at Los Angeles,
Cal. Jesse says that there was not
much of a shock at Los Angeles, and
that when he got a little time, he
would write a full description of the
earthquake. At the time of writing
the letter Mr. Armstrong had been on
duty for 37 hours.

turned to their home on North Fourth
street after having spent a week in
Pataskala, where they were called by
the serious illness of Mr. Scott's father,
who has Bright's disease and heart
trouble.

Mrs. Ella Bland of Newark was a
guest at the reception given Friday
evening at the home of Mr. and Mrs.
George Speed of Newark road, in
honor of Mr. and Mrs. Louis Speed
who were married Thursday. There
were about 200 guests at the reception.

—Zanesville Signal.

Mrs. Johnathan Wright and Miss
Martha McKinney will go to Columbus
this evening to attend the funeral of
their nephew, Mr. Frank Jones, which
will take place in that city tomorrow
morning. The remains will be brought
to Newark Tuesday afternoon and in-
terred in Cedar Hill cemetery.

Clean your premises tomorrow.

TO KILL THE DANDRUFF GERM.

Is the Only Possible Way of Having
An Effective Cure.

If you see a woman or a man with lux-
uriant glossy hair, you may be sure nei-
ther has dandruff to amount to anything.
In nearly every case where women and
men have thin brittle hair, they owe it
to dandruff. There are hundreds of prepa-
rations that "claim" to cure dandruff,
but not one but Newbro's Herpicide tells
you that dandruff is the result of a germ
growing into the scalp, and that per-
manent cure of dandruff and its conse-
quent falling and baldness, can only be
had by killing the germ; and there is no
other preparation that will destroy that
germ but Newbro's Herpicide. "Destroy
the cause, and you remove the effect."
Sold by leading druggists. Send five 10
c stamps for sample to The Herpicide Co.,
Detroit, Mich.

der, an instructor in German at Har-
vard university, on the charge of hav-
ing murdered his wife with poison.

\$150,000 for Twelve Novels.
It cost \$150,000 to secure a new
series of fiction to be published in the
Sunday issue of The Pittsburg Dis-
patch, commencing May 6. Subscrib-
ers to that paper can read 12 great
books by 12 great American and Eng-
lish authors during the next 12
months without paying one cent ex-
tra for complete book each month.

The same novels, if published as
book form, would sell from \$1 to
\$1.50 each. This means that sub-
scribers to The Sunday Dispatch will
get from \$12 to \$18 worth of new
books that are absolutely new stories
free with their subscription. All you
have to do is to buy The Sunday Dis-
patch at the regular price—say 5 cents
per copy.

The instruments each Sunday will
occupy a separate section and are
convenient to find. Leave your or-
der with your newsdealer now and
next Sunday (May 6) you will re-
ceive the first installment of the first
novel, "A Rock in the Battle" by that
famous author, Robert Barr.

Use Allen's Foot-Ease.

A powder to be shaken into the shoes.
Your feet feel swollen, nervous and
tender, and get tired easily. If you have
aching feet, try Allen's Foot-Ease. It
keeps the feet and makes new or tight
shoes easy. Cures itching, swollen,
swelling feet, blisters and callous spots.
Relieves chafing, corns and bunions of
all kinds and gives rest and comfort. Try
it today. Sold by druggists and shoe
stores. Don't accept any substitute.
Trial package FREE. Address Allen S.
Olmsted, Le Roy, New York.

Frank S. Monnett has been engaged by the interstate commerce commission, because of his known record for combine fighting, and complimentary things are being said about him by some of the Republican papers which stand for all that Roosevelt stands for, all this because he will seek to bring the oil trust to time. Things have changed in a few years. Monnett was at one time attorney general of Ohio, elected as a Republican. He undertook to enforce the anti-trust law of the state against the same trust, and a good many Republican papers opened fire on him and the party machine drove him finally into the ranks of the Democracy, Monnett saying that he had no hope of the Republican party ever accomplishing anything in destroying the combines.

A Washington correspondent said a few days ago that Senator Dick in answer to an inquiry said that President Roosevelt's fortune-regulating ideas would not be endorsed by the next Ohio Republican convention, "because it will be a Republican convention." The Her Star, the Republican organ in Greenville and Jefferson county, in commenting on the junior senator's statement said: "We wonder who the senator who the Ohio Republican convention will do. If he says that there would be no endorsement of this idea he would have been stating a fact, but to sneer at Roosevelt's policies as un-Republican is going a little too far. If these two men were to come before the Republican voters of Ohio for endorsement there would only be a handful of people know that Dick was in the running."

A bill has been prepared for presentation to the senate prohibiting the contribution by corporations to national and congressional campaign funds. It provides a punishment for those who violate the law by making such contributions, but does not inflict any penalty on those who received them. This is certainly a serious omission. There is no good reason why both parties to an infringement of the law should not be made to suffer for their acts. It would certainly be an additional safeguard against the breaking of the law if such were the case. Campaign managers and candidates should be required to ascertain where the campaign contributions come from, and they should not be permitted to take such from sources prohibited by law. When they do they should be held to have violated the law and be subject to a proper penalty.

Clean back yards tomorrow.

PITTSBURG PAPERS ARE CONSOLIDATED.
Pittsburg, Pa., April 30.—By a consolidation of interests the Pittsburg Times and the Pittsburg Gazette will cease to exist under their individual names with the issues today. Tuesday the publications will appear as the Gazette-Times and will be issued from the Gazette plant.

The tulip is the emblem of Hungarian and anti-Austrian sentiment. A tulip League has been formed in Hungary to boycott everything Austrian. The members wear a badge of a tulip in the Hungarian colors—red, white and green.

The discovery has been made that recent great bush fires in New South Wales and Victoria were caused by phosphorus paste laid out to kill rabbits. As soon as the mixture dried the sun's rays set fire to it.

WASHINGTON NEWS

End of Rate Debate.
Washington, April 30.—Railroad rate legislation continues to hold first place in the United States senate. There are three or four more general speeches to be made on the bill, and when the last one of them shall have been heard, if not before, there will be an agreement upon a time for taking the final vote. This is expected to be about May 10. So far, official notice has been given of only two more speeches. They will be made by Senator Clark of Arkansas and Senator Daniel. It is possible that Senators Rogers and Chandler, and even others, also will desire to be heard, so that a considerable portion of the present week will be devoted to general discussion. By common consent several days will be consumed in considering amendments under the rule limiting speeches to 10 minutes.

Philippine Corporation Act.
Washington, April 30.—The Philippine commission has just enacted a corporation law patterned after the corporation acts generally in force in the United States. Up to the present time, the only law under which capital could incorporate in the Philippine Islands was the old Spanish code of commerce. The provisions of this code, in so far as they relate to the organization of business corporations, according to the Philippine official, are archaic and ill adapted to the needs of modern commerce as conducted by English speaking people. They are repealed by the new law, and persons wishing to invest capital in the Philippines can now do so under legal provisions framed in accordance with common law principles.

Fifty Millions a Year.
Washington, April 30.—Impetus is to be given the movement in favor of a fifty million dollar a year river and harbor bill, which the National Rivers and Harbors association have adopted as their object for existence, in a southern trip begun by Representative Ransdell of Louisiana, chairman of the executive committee of the association; Representative Davidson of Wisconsin, chairman of the house committee on railways and canals; Representative Jones of Washington; Representative Maynard of Virginia; and Representative Small of North Carolina. The itinerary of the trip includes visits and speeches at Norfolk, Va., and Elizabeth City and Wilmington, N. C.

Eulogized Pinckney.
Washington, April 30.—The house met Sunday to hear addresses on the life, character and public services of John M. Pinckney, late a representative from the Eighth Texas district. Mr. Hayden, by appointment of Speaker Cannon, presided. Mr. Stephens, Texas, presented the resolutions of sympathy on the part of the house. Addresses were delivered by Messrs. Moore, Mr. Pinckney's successor in congress, Field, Henry, Garner, Gregg, Burgess, Beall, Randall and Sheppard, all representatives from Texas, and Padgett, Tennessee, and Lamb, Virginia.

IF YOU TRY

Convention of Miners.

New York, April 30.—Interest in the coal mining industry centers in the convention of miners which is to be held in Scranton Thursday. President Mitchell of the United Mine Workers, having received the reply of the operators denying the last request for an increase in wages, will call a meeting of the sub-scale committee, who, it is expected, will in turn report to the convention. The question of a strike will then be decided.

CITY'S MONEY FOUND INTACT

Coin, Securities and Bonds in City Hall Escaped the Flames.

FINANCIAL PROBLEM AIRED

Leading Business Men Would Have the United States Indorse the Proposed Bonds of San Francisco. Streetcar Service Extended and Shipping Resumes Normal Course.

San Francisco, April 30.—Officials of the municipality were highly elated upon finding the contents of the municipal treasury intact. The vaults were located in a section of the city hall that escaped the fire, and when an expert opened the doors he found gold, silver and certificates scattered over the floor, but there was nothing missing. The vault contained \$5,800,000 in coin and currency, \$300,000 in securities of the German Savings bank and \$12,000,000 of unsold city bonds.

Plans for solving the tremendous financial problems that confront the city began today to assume tangible form. At a meeting at which were present James D. Phelan, chairman of the finance committee, and some noted lawyers and bankers, a plan was broached for financing the city, which it is hoped, will meet with the endorsement of the general committee. It being estimated that the city has suffered a loss of at least \$200,000,000 by fire, it is conceded that there is not sufficient money in San Francisco to reconstruct the city and that the people here must look elsewhere for funds to rehabilitate their destroyed fortunes. Mr. Phelan claimed that if this money is borrowed through ordinary channels the rate of interest will add a burden to necessarily increased taxation that will be too heavy to bear. The plan of Mr. Phelan is to frame legislation to present to congress asking the United States to endorse the proposed bonds of San Francisco.

The number without substantial shelter has been reduced to a minimum. The housing committee reported that its work had almost been completed, the applications for accommodations having ceased.

There was some extension in the electric car service and workmen in the remote suburbs will be afforded quick transportation to the water front and points in the burned district, where they may be obliged to labor. Shipping is beginning to resume its normal course. There were a number of departures of steamers and several arrivals.

Probably the most significant instance of the determination of the officials to bring about a restoration of the old order of things, and of the disposition of the people to speedily forget the recent disaster, was the resumption of the Sunday afternoon concerts in Golden Gate park. These concerts have always been a "Sunday feature" in San Francisco, and in addition to the excellent program given in the big park, a volunteer band discoursed music for a second in the "tented city" in Jefferson Square.

To Be Expended By War Officials.

Washington, April 30.—Commenting on the dispatches from San Francisco, expressing the surprise of the citizens' committee that only \$200,000 of the relief fund of \$2,500,000 appropriated by congress is still available for relief work, Acting Secretary Oliver of the war department pointed out that it was never contemplated that the appropriation should be spent by the citizens of San Francisco. The money, according to the resolution of congress, was to be expended by the war department, was to reimburse that department for rations, tents, blankets, etc., belonging to the army which were rushed to San Francisco and also to purchase other relief stores.

IN BREATHITT.

Renewed Outbreak of Feud Spirit.

Residence Shot Up.

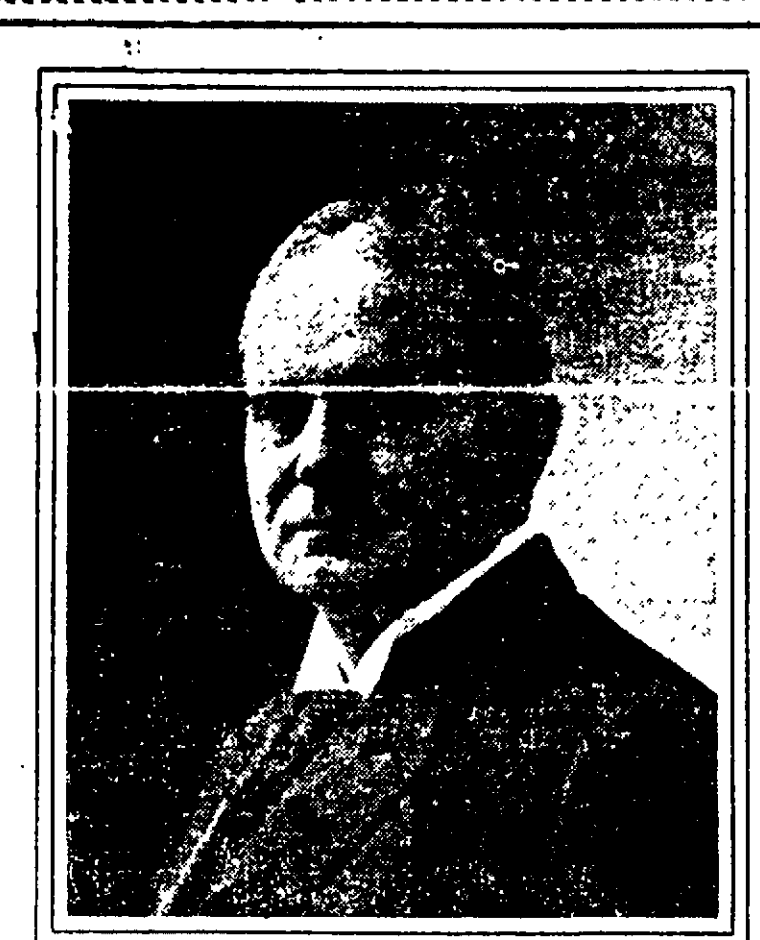

Jackson, Ky., April 30.—A fusillade of thirty or forty shots and the wounding of one man marked a renewed outbreak of the feud spirit which has given so much trouble in Breathitt county. "Red" Tom Cockrell, Jake Noble and Tom Barnett besieged Beach Hargis, a relative of former County Judge Hargis, in the house of Harrison Hall, all the glass in the front of the house being shot out. Barnett was wounded in the wrist. The outbreak was precipitated by a brief quarrel between Hargis and Cockrell on the street an hour previous. Hargis was gotten safely to his home under a protection of his being arrested and further trouble was avoided for the time being, although the affair has created great unrest.

SHOT BY WIFE.

Drunken Man Assaults His Daughter at His Home.

Cumberland, Md., April 30.—George Fogle of Brooklyn Heights, Md., returned to his home after he had been drinking and entering the room where his wife and 12-year-old daughter were in bed, drew a revolver and announced that he would shoot upon being interfered with. Fogle then threw his wife to the floor and assaulted his daughter. Mrs. Fogle secured the revolver and killed her husband. She surrendered to the authorities, but was not locked up. It was announced that the woman will not be prosecuted.

GRANVILLE NEWS

Granville, April 30.—Dr. C. J. Baldwin, pastor of the Baptist church, preached very effective sermons at both the morning and evening services on Sunday. In his morning sermon Dr. Baldwin emphasized the power of the little things in life, the great spiritual messages which come to us not through a great confusion and chaos, but through the order of nature and quiet and peacefulness. We should find great truths and lessons, taught not by unusual disasters, not by the failure of nature to work uniformly, but by the uniformity of nature herself, by the very fact that harmony is in nature. In the evening the sermon was preached before the officers and teachers of the Sunday school, and had its chief subject "The Progress of the Human Soul."

On Saturday afternoon the Fortnightly club very delightfully entertained the Newark Ladies' club in the parlors of the Baptist church. Mrs. McKinnon recited a very beautiful selection and Miss Elsie Hirschberg and Maude Thompson sang several solos during the afternoon. The rooms were beautifully decorated, the colors of the Fortnightly club, green and white, making an effective color picture which was carried out in the dainty refreshments served at the conclusion of the program.

Everywhere you look these days, can be seen the evidences of activity. The barren hills and valleys have taken on a new change of hue clothed in nature's garb of fadeless green, all of which proves that the advance agent of spring has dissolved partnership with the ground hog.

All the farmers in this vicinity have been exceedingly busy during the past few days, preparing the soil and doing their planting.

Farmers in Granville township have most promising prospects for a big wheat crop.

Harry Burkan, one of the best known and most popular men of Granville township, has purchased the Buxton livery stable, the change taking effect today. As Mr. Burkan has many friends in the village he will undoubtedly do a rushing business.

Mrs. Daniel Shephardson of Newark was the guest of Mrs. E. S. Shephardson over Sunday.

Mrs. Wiegand and daughter, Miss Anna Wiegand of Newark were guests of Mrs. Kelvey and family Sunday.

GOLDEN WEDDING

Celebrated at Zanesville by Mr. and Mrs. John Abele, Former Residents of Newark.

Mr. and Mrs. John Abele, of Zanesville, celebrated the fiftieth anniversary of their marriage on Thursday evening by entertaining a large number of their friends in the ball room of the Masonic Temple, that city. Mr. and Mrs. Abele have a number of relatives and friends in Newark who will be interested in the following taken from the Zanesville Signal.

"Mr. and Mrs. Abele were united in marriage at the home of Mr. and Mrs. Charles Snyder of the Newark road, fifty years ago Thursday. The bride was formerly Miss Phoebe Darringer and was born in Wittenberg, Germany, as was also Mr. Abele. Both came to this country, however, early in life. To this union thirteen children were born, nine of whom are now living. These children are Mrs. Edward Sheffield, Henry Abele, William Abele, all of this city; Mrs. Henry Vogelmeier and Miss Elizabeth Abele of Newark; Mrs. Frederick Williamson

ECZEMA SKIN RAW AND FEVERISH-ITCHING INTENSE

Eczeema is a tormenting, stubborn disease caused by an acid humor in the blood coming in contact with the skin and producing redness, inflammation and almost intolerable itching. An inactive state of the system and sluggish condition of the eliminative members leaves the waste and refuse matter of the body to collect and sour instead of passing them off through nature's channels of bodily waste. The blood in its efforts to purge the system of all foreign matter absorbs this acid and throws it off through the pores and glands of the skin. The acid humor seems to ooze out and set the skin on fire, the straw colored, sticky fluid drying and forming crusts, and the itching is intense. When these pustules are scratched off the skin is left raw and feverish and often a solid sore is formed and kept up by the constant escape of acids from the blood. Local applications of salves, powders, lotions etc., are desirable and should be used because they allay the itching and give the sufferer temporary comfort, but are in no sense curative, because they cannot reach the seat of the trouble, which is in the blood.

S. S. S. goes down into the blood, cleanses the circulation of all acids and humors, builds up the thin, sour blood and by removing every vestige of the cause cures Eczeema permanently. The irritating eruptions disappear, the itching and burning cease, and the acid-fried skin, being fed by a fresh, cooling stream of blood, becomes soft and smooth again. S. S. S. is made of healing, purifying roots, herbs and barks that will not damage any part of the system. Book on skin diseases and any medical advice free.

ADVOCATE WANTS BRING RESULTS

Initial Display of Wash Fabrics

If you want to delight your eyes, surprise your imagination and satisfy the most astute longing for excessively pretty white and colored fabrics at extremely low prices, visit this store tomorrow.

For the first time we formally exhibit the wonders the manufacturers have accomplished with the mystic treatment of the cotton ball.

Rich and elegant silks are imitated and you would swear they are pure silk. The "Cotton Wizards" haven't stopped at making silks of cotton, but have resembled the wool Voiles and Etamines and Mohairs so closely that you need a microscope to tell those of cotton and those of wool.

We Want You to Come

We don't care whether you buy or not, we do want you to see these beautiful wash fabrics and take note of their price lowness.

Tomorrow is the Formal Exhibit--Come.

The Powers, Miller & Co.
NEWARK'S BIG DEPARTMENT STORE

Spinal troubles are sometimes *Shoe* troubles.

Shoes that slip up and down at the heel, swell at the sides, and wobble as you walk are a great strain to the spine, and often cause serious complications.

The Shoes that *Don't*, bear the "Good" sign

We recommend these shoes because of their superior quality—and because of their patented fitting feature that prevents sides swelling, heel slipping and shoe wobbling.

NEW B. & O. DEPOT AT SANDUSKY, O.

RAILWAY WILL EXPEND ABOUT \$150,000 SOON AT PARKERSBURG, W. VA.

Freight Yard to be Doubled and Other Improvements Will be Made. Railway News Items.

The B. & O. has decided to build a modern passenger station at Sandusky, at a cost of about \$15,000. Work will be commenced as soon as the contract can be awarded. The new station will take the place of the one now in use, and which is quite an old landmark. It was used for a good many years, during the time the railroad was operated by the Sandusky, Mansfield & Newark, and later on, when the B. & O. road took the line between Newark and Sandusky under its operation.

The new depot will be 76 feet in length and 36 feet wide. The new depot will be constructed of pressed brick and stone, with tile roof.

Parkersburg Improvement.
The B. & O. has just decided to make extensive improvements at Parkersburg, W. Va. The expenditure will amount to about \$150,000, and the work will include the enlargement of the freight yard to more than double its present capacity; the erection of a round house, machine shop and oil house and the building of a cinder pit. Bids will soon be asked. This improvement is mainly required by the abandonment of Belpre, Ohio, as a freight terminal and the making up and handling of all freight trains at Parkersburg. The bridge across the Ohio river has been so strengthened that all trains can be run over it. Heretofore the bridge was so light that eastbound trains had to be set off at Belpre and westbound at Parkersburg and then taken across the bridge in either direction in sections. This work was done by a switching engine hauling three or four cars across at a time. The change by which everything is handled at Parkersburg provides greater convenience and expedites the movement of business. D. D. Carother, chief engineer, is in charge of this work.

Heavy Traffic West.
Passenger traffic to the Pacific coast and especially to San Francisco, has been very heavy for some days, many

of the business men from the east being en route to the coast to look after their interests.

Clean cellars tomorrow.
"Had dyspepsia or indigestion for years. No appetite, and what I did eat distressed me terribly. Burdock Blood Bitters cured me."—J. H. Walker, Sunbury, Ohio.

FRAY IN SALOON.
Volleys Exchanged Between Union and Nonunion Miners.

Johnstown, Pa., April 30.—Union and nonunion miners clashed again at Paint Creek mines, near Windber, where a week ago a mob had to be dispersed by a volley from the musket of the deputies. As a result of the latest riot, two men are dying in the hospital at Windber, a third is probably fatally stabbed, several others sustained various injuries and seven men are under arrest for inciting to riot. Since the last trouble, the saloons at Windber have been kept closed and the men visited the saloons at Paint Creek. A union and a nonunion man got into a quarrel and soon blows were struck. A knife was drawn by one of the men and immediately there was a rush from all sides to the support of the contestants. Knives and guns were drawn and bullets began to fly. The battle lasted for half an hour. The sheriff at Windber was notified and with twenty-one deputies arrived after the riot was over. They arrested the leaders.

TRAPPED GAPON.
Revolutionists Believed to Have Murdered the Former Leader.

St. Petersburg, April 30.—The Novorossyia prints a circumstantial story which tends to confirm the reports that Father Gapon has been assassinated by a revolutionist. Father Gapon is represented as having entered into relations with a group of the "fighting organization" of the terrorists, and in order to test his loyalty one of the leaders, an engineer named Rutenberg, offered to betray the secrets of the organization to the government. Gapon took the bait and offered to conduct the negotiations. Some haggling about the price to be paid followed, Rutenberg demanding \$50,000. Finally, however, on his agreeing to accept \$12,500, Father Gapon went to Odak, a small place beyond the Finnish frontier, to meet Rutenberg for the consummation of the agreement. He has not been seen since.

Destroyed By Fire.
Elizabeth, N. J., April 30.—The Bayway Refining company's plant at Elizabethport was destroyed with a loss of \$100,000.

In the insane asylums of Germany more than a third of the patients owe their condition to strong drink.

HEALTH OFFICER CLARK B. HATCH

URGES PEOPLE OF NEWARK TO OBSERVE PROCLAMATION OF THE MAYOR.

Tuesday, May 1, is Date Set for Newark's Annual Cleaning Up of Premises.

The first steps taken by Hippocrates, the most noted follower and descendant of Asclepius, who was the founder of medicine, against the invasion of disease was CLEANLINESS, and his rulings were accepted by the Neophytes and their followers who resided on the islands of Cos and Nidus and through his efforts along this hygienic line disease was in a measure, conquered. We of the present day and generation through educational advantages have progressed along many lines but at the same time have neglected many essentials which will lead to better health as the natural sequence of their environment. The strenuous life through which we are all passing is in a measure responsible for our oversight, but owing to the ambition of women, that pillar to which man clings, we will tomorrow be brought face to face with an opportunity which has never received our attention.

Tuesday, the first day of May, has been set aside by our Mayor, the Hon. Samuel H. McCleery, for the purpose of cleaning our yards, both front and back, and removing all unsightly articles from premises and business blocks, and it is the desire of the Department of Health, the Newark Civic Improvement League and every citizen who has the welfare of the city at heart that all should do their part.

When cleaning, do not neglect your back premises. See that every vestige of dirt and disease breeding filth, is placed in a single pile and then have it removed.

The front yard and back yard are homologous to reputation and character, the former is that by which your friends know you and the latter is that by which you know yourself.

It should be the aim of every citizen of Newark to keep his or her premises in a clean and sanitary condition, but in order to do this it is necessary to have a garbage can wherein all paper can be burned and all kitchen refuse deposited and then at regular intervals have it taken away. This latter can be accomplished either by the property owner or one of the few teamsters or companies who make this a business. As health officer of your city, I personally appeal to you to do the work outlined, the city will reap the benefit and we will be saved the embarrassment of calling your attention to your thoughtlessness or neglect and compelling you to do your duties as citizens of Newark. Sincerely yours,

CLARK B. HATCH, BOARD OF HEALTH.

Doctor Brigham Says MANY PHYSICIANS PRESCRIBE

Lydia E. Pinkham's Vegetable Compound

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womanhood is not because it is a stimulant, not because it is a palliative, but simply because it is the most wonderful tonic and restorative ever discovered to act directly upon the generative organs, positively curing disease and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue of Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due.

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ill, as they know by experience it can be relied upon to effect a cure. The following letter proves it.

Dr. S. C. Brigham, of 4 Brigham Park, Fitchburg, Mass., writes: "It gives me great pleasure to say that I have found Lydia E. Pinkham's Vegetable Compound very efficacious, and often prescribed it in my practice for female difficulties. My oldest daughter found it very beneficial for female troubles some time ago and my youngest daughter is now taking it for female weakness, and is surely gaining in health and strength. I freely advocate it as a most reliable specific in all diseases to which women are subject, and give it honest endorsement."

SUSTAINS LOSS BY EARTHQUAKE

L. O. GRANGER, FORMER BUSINESS MAN OF NEWARK, AT OAKLAND, CAL.

Says Disaster Will Force Him to Put on the Business Harness Once More.

Mr. A. P. Taylor, of this city, has received the following from his brother-in-law, Mr. L. O. Granger, of 918 1-2 Washington street, Oakland, Cal., who was a former well known Newark business man:

Oakland, Cal., April 23, 1906. Dear Sir and Brother—I send you a few papers today. I have had all the earthquake I want. Oakland stood the test well. San Francisco would have done the same had it not been for the fire. The water supply being shut off by the quake, the fire had no opposition. It rained last night and still continues at this writing, a hard proposition for those who are living in the parks, and there are thousands of them doing so. Well, I am out and injured by the catastrophe financially. So I will (if possible) have to get in the harness again. When one feels as though he was able to live the balance of his life without struggling for his bread and butter, and then to have the feeling changed so suddenly, he is naturally disappointed. Truly yours, L. O. GRANGER.

MICHAEL KEELEY DESCRIBES SCENE

VISITED SAN FRANCISCO JUST AFTER EARTHQUAKE ON APRIL 18TH.

Brother of J. D. Keeley Was Thrown About His Room by Shock But Was Not Injured.

J. D. Keeley of this city, a member of the firm of Bailey & Keeley, just recently received a letter from his brother Michael Keeley, well known here, but at present residing in Richmond, Cal., 13 miles from San Francisco, in which Mr. Keeley describes the conditions and his experiences at the time of the calamity which befell that city.

In the letter, which describes the occurrence, Mr. Keeley states that at 5:15 he was awakened by the terrific shaking and rocking of the room. He arose and attempted to get out of his bed, but as soon as he touched the floor he was thrown clear across the room, shaking the opposite wall. Then he turned to get his clothes and was thrown back upon the bed again. He finally managed to dress, went down the stairs and out into the street. The sights which met his eyes there are said by Mr. Keeley to have been as strange as the feeling which he experienced during the shock.

As soon as possible Mr. Keeley went to San Francisco, where according to his letter, the scenes were beyond description. Men and women half clad, some seemingly undisturbed by the catastrophe and others walking the streets crying and begging. He states that he only stayed in the city from about nine o'clock in the morning until about that time in the evening, but that in that time he could get nothing to eat and not even a drink of water.

Later in the letter Mr. Keeley says that he fears it will be necessary for him to leave Richmond because of the fact that prices are so extremely high for goods in all lines.

Y. M. C. A. ADDRESS

Given at Taylor Hall Sunday by Rev. O. C. Wright—Good Music. Prof. Simkins Next Sunday.

Though there was not a large attendance at the men's meeting at Taylor Hall Sunday afternoon, the usual standard of excellence in both music and address was upheld. The duet, "Peace Be to This Dwelling" was rendered by Prof. W. W. Flora and Miss Freda Pfeffer. Also the solo, "Fear Not Ye, O Israel," by Miss Pfeffer. Both songs were much appreciated by the audience.

Rev. O. C. Wright, of Columbus, gave the address. His subject might be stated as "Zacharias, the Man of the Square Deal." In his few minutes' talk he showed an ideal of manhood in the sincerity and justice of his relations, both to God and man. One of the greatest principles of Christ's kingdom is the square deal, and the man who always practices the square deal with God and man, is not far from the kingdom.

The address next Sunday will be given by Prof. J. D. Simkins, superintendent of the public schools, and the music by the Apollo Club.

SCHMITZ—FUNSTON

Two Americans Who Nobly Rose to the Demand of a Great Crisis

San Francisco's Musical Mayor Can Fiddle, but He Can Do Other Things Too—Funston, the Plucky Kansas Soldier, a Man of Force and Action

AFTER all, it is a great thing to be an American and to live in this age. It is a privilege worthy of gratitude and pride, not in any boastful and provincial sense, but as a matter for humble acknowledgment. In times of prosperity we recognize this too little, but a great disaster reveals us to ourselves and to each other. It makes plain to us that the world actually has advanced, that human brotherhood is not a dream, that our people when called upon can show almost universal heroism, courage, patience and pluck. To have these qualities in the American masses is worth more than all our wealth, for, given the right kind of men and women, all other things are added unto them. They can build their state or rebuild it; they can make their cities or remake them if destroyed; they can produce capital and produce more if that be swept away. Men of character are the important thing. Without them there is nothing. With them all things are possible. To a great souled, brave and intelligent people the temple of progress opens all its doors. The earth and the fullness of it are theirs. San Francisco has not fallen, for its people yet live, and they are the city. Earthquake and fire may have obliterated some miles of masonry, but they have not demolished or consumed the spirit of San Francisco. That has risen higher than before. Almost without murmur the people faced their stupendous loss. In the midst of the chaos of the elements they maintained order. Oh, that was a triumph to warm the heart of man! America is forever safe while she contains such citizens. They are superior to accident, they can conquer adversity, they are masters of fate. As our hearts go out

decided to run an independent ticket they turned to him as their leader. It was the teamsters' strike and the brutal manner in which the men were handled by the city authorities that decided the workingmen to go into politics and solidified them so that they have carried San Francisco ever since.

Accomplished Violinist.

Mayor Schmitz is tall and athletic in appearance and of a bearing that would make him a marked man anywhere. He is an accomplished violinist. At the time of the strike of the autocratic miners Mayor Schmitz was instrumental in having a musical entertainment held to raise funds for their support. He directed the orchestra and played a violin solo. The sum of over \$3,000 was raised.

Schmitz's vocation as a violinist caused one very dismal prediction to be made when he was first a candidate. A lawyer in a speech against the labor candidate referred to the fact that Nero fiddled while Rome burned and added:

"If Schmitz is elected he will be fiddling when San Francisco is in ruins."

Now that San Francisco is in ruins and Schmitz is doing everything except fiddling, that lawyer has concluded in future to leave the prophecy business to Dowle and the weather department.

The story is told with gusto by San Franciscans that Schmitz's sister-in-law was once a servant. When Gene was elected she gave notice to her mistress that she was going to live with her brother-in-law, the mayor, and invited the scandalized woman to call on her. San Francisco is too democratic a community to mind a little thing like that. Too many of its bonanza kings and high society people came from the proletariat themselves

efficient manner in which he provided for the distribution of all supplies have averted the danger of famine. It took quite as prompt measures to provide against pestilence because of the large number of dead in the ruins and about the streets. Before the fire was out he sent out reassuring pronouncements to the citizens, and no sooner was he told that the flames were under control than he was talking of a new and greater San Francisco to arise on the ashes of the old. All this sounds easy, but when one is worn out by three days' incessant labor, with three-fourths of the city for whose welfare he is responsible, in ruins, it is not as easy as it seems.

"Lucky Funston."

Another man who has risen to the occasion like an American is General Fred Funston, who is in command of the regular army post at San Francisco. General A. W. Greely, who is in command of the whole Pacific coast division, had started east to attend the wedding of his daughter just before the earthquake occurred. This left Funston in sole command. So prompt was he to meet the situation that he had thrown his forces into the stricken city, had begun to distribute tents, bedding and rations and had been at work several hours before he had time to telegraph to Washington for orders. While praising him for his energy and expedition, army men for now calling him "Lucky Funston," from the fact that he always seems to be on the spot where there is anything to do.

A man may be lucky who has opportunities come his way, but it requires something more than luck to grab the opportunity and make it into capital before it gets away. There are some people who do not know an occasion when it bumps into them. There are others who can recognize it a mile off and who chase it down and make it their own. Funston is one of these others. He is a little, sawed off Kansan, red headed and a fighter. He is about the same age as Mayor Schmitz and, like him, has been a Klondiker. Likewise, General Fred has been a schoolteacher, a reporter, a Cuban revolutionist and a soldier in the Philippines. He fought with Maceo for "Cuba Libre" before the blowing up of the Maine induced Uncle Sam to get into the game. When war was declared between this country and Spain, Funston returned home and was made colonel of a Kansas regiment that went to the Philippines. There he distinguished himself by crossing the Rio Grande river on a bamboo raft in face of a galling fire and establishing a rope ferry, by means of which the American army crossed and won a victory. For this exploit Funston was made a brigadier. That seems to be all there is of the story of his swimming a river, which was quite generally circulated. While a bamboo raft is not quite as romantic as

plunging in boldly, no matter how coldy the dark river ran, it was equally dangerous in this instance and more scientific.

Turned the Trick.

Funston's exploit in capturing Aguinaldo is familiar to everybody. It was this that made him a brigadier general in the regular army. He has not escaped criticism in connection with his various deeds of valor, some people asserting that he basely deceived the Filipino leader and all that. Perhaps he did. Anyway he turned the trick, and that is what counts with the world. War is not exactly a Sunday school affair at best, and so long as men fight things are bound to occur that will shock sensitive people. We all hope for a time when the killing business will be ended for good and all, but until that happy day comes it is just as well to be charitable to our brother who bears the "brunt of battle."

It was also charged that Funston looted or permitted to be looted Catholic churches in Luzon. This he indignantly denied. One thing he did do after returning home that is admitted. He talked too much and was promptly called down by President Roosevelt therefor, but that episode is pretty well forgotten now.

As to Funston's services in the present emergency there can be no two opinions. In the work of mercy all hearts can join. This is a campaign not for death, but for life; not to destroy, but to save. It appeals to all that is best in man. It touches something divine deep within us waiting but for a word of love to call it forth. Charity is just as sweet now as it was when Paul described it as the chief of virtues.

Whatever we may be in prosperity, in adversity we are comrades. There is no aristocracy of suffering. When the human is stricken the human responds. Grant conquered as much by his magnanimity as by his sword. He conquered most when he said, "Let us have peace."

Amid the ruins of San Francisco there is equality. The family from Nob hill and that from the slums tent side by side and help each other by little deeds of kindness. The daughter of the erstwhile millionaire and the girl that a few days ago clerked in a department store fraternize. The San Francisco swell helps dig trenches and sits on the curb with the had carrier as both drink coffee from tin mugs. Those who hand out supplies do not ask the applicant how much he is worth or of his ancestry or education, but is he in need. There is democracy in affliction, and the day may come when there will be democracy even in plenty. San Francisco may help to teach us the brotherhood of man.

J. A. EDGERTON.

MAYOR EUGENE F. SCHMITZ. GENERAL FREDERICK FUNSTON.

to them in their affliction our pride goes out to them likewise for their fortitude, their faith, their hope. It was splendid, too, was it not, the way the country responded, raising millions of dollars, sending countless train loads of provisions, dispatching messages of cheer and sympathy until the burdened wires could not carry them. It is worth while to have lived to behold these signal evidences of strength and brotherly kindness. With tears of thankfulness we can say: Democracy and liberty are secure when carried forward by such a people. Self government has not been in vain. Truly these are Americans.

On one man the blow to the western metropolis has fallen with especial weight. The manner in which he has borne the burden, has preserved order, has organized relief measures, has cheered the citizens, has given the country assurance that the city would be rebuilt better than before and has worked night and day to do the thousand and one things that the situation demanded—in a word, the way he has made himself equal to a great occasion—has attracted favorable comment the country over. This man is Mayor Eugene F. Schmitz. He is a native of the Golden Gate City and, though only a little past forty, is serving his third term as head of its government. One thing that makes his position unique is that he was elected without the help of either of the regular party organizations, being the candidate of the Union Labor forces. When he was first nominated in 1901 scarcely anybody believed that he had a ghost of a show. Yet he was successful by an overwhelming plurality. Another notable thing about Mayor Schmitz is that he is the son of a German father and an Irish mother, a combination, by the way, that has given the country some of its strongest men. Mr. Schmitz, like his father, is a musician, having been at one time director of the orchestra at the Columbia theater. He was also president of the Musicians' union of San Francisco. His fairness as an employer and his ability as a speaker made him popular with the labor forces, and when they

to let such an episode disturb them. They regard it only as a good joke, which indeed it is.

Mayor Schmitz himself is a finely educated man, having studied medicine for two years, but deciding not to enter the practice because of ill health. It was this which caused him to go into training as an athlete. It also decided him to go to the Klondike, though at a later period, and with this is connected a story that he often tells.

Tore the House Down.

The miners at Dawson got up many vaudeville entertainments with such talent as the place afforded, and Schmitz was asked to play for them. Disguising himself as a tramp, he complied. At first, of course, he could only get discards out of the violin. When he had an audience snickering properly at his amateur performance he roared off a cadenza that brought the orchestra leader open mouthed up over the footlights and set the audience gasping. He followed this with his own variations on "Il Trovatore," which caused those present figuratively to tear the house down. After being encored innumerable times he was offered \$25 a night to play first violin in the orchestra. Afterward the story got out that the supposed tramp was really the director of one of the leading orchestras of San Francisco who was in the Klondike on a vacation.

During this same trip Schmitz also became a steamboat captain, successfully navigating a boat several trips up and down the Yukon river.

Danger of Famine Averted.

In the present crisis Mayor Schmitz has shown himself prompt and energetic. His orders to shoot all persons found looting, to confiscate the property of those dealers charging outrageous prices, his drafting every able-bodied citizen to fight fire and perform other manual labor and the other rigorous measures adopted have done much toward preserving quiet and order during this worst calamity that ever befell an American city. His telegrams sent all over the country asking for bedding, tents and food and the

efficient manner in which he provided for the distribution of all supplies have averted the danger of famine. It took quite as prompt measures to provide against pestilence because of the large number of dead in the ruins and about the streets. Before the fire was out he sent out reassuring pronouncements to the citizens, and no sooner was he told that the flames were under control than he was talking of a new and greater San Francisco to arise on the ashes of the old. All this sounds easy, but when one is worn out by three days' incessant labor, with three-fourths of the city for whose welfare he is responsible, in ruins, it is not as easy as it seems.

"Lucky Funston."

Another man who has risen to the occasion like an American is General Fred Funston, who is in command of the regular army post at San Francisco. General A. W. Greely, who is in command of the whole Pacific coast division, had started east to attend the wedding of his daughter just before the earthquake occurred. This left Funston in sole command. EXTRAVAGANCE IN DISTRIBUTION

RESULTS IN NEW SYSTEM OF CARING FOR THE 200,000 NEEDY PEOPLE.

Estimated That 7000 Tons of Food Have Been Distributed in the Past Ten Days.

San Francisco, April 30.—Charges of extravagance and waste in the distribution of supplies resulted in orders by General Greely today establishing a new system of caring for 200,000 needy people. The unburned section of the city was divided into seven military districts which were subdivided into 100 relief stations with officers in charge of the separate branches. Greely's order says: "Extreme distress for food has passed and at the earliest possible moment, rationing must be confined to the helpless—women and children and refused to adult males unless they are dying or in feeble condition."

Greely said: "The regular army officers who saw about 400 men in the bread line offered them work at \$2 per day. Only a few accepted. These hungry beggars cannot be supported by charity."

Careful estimates say that 7,000 tons of food were distributed free. In the past ten days, the daily free distribution amounted to 1,000,000 pounds. Regular army soldiers patrol in Chinatown and the section of the where there are many pawn shops and have had difficulty in keeping out the looters. The soldiers are forbidden to shoot these petty thieves.

TUXEDO CLUB CIGARS

Clean back yards tomorrow.

Information Wanted.

Willie—Teacher, is a streamlet a small stream?
Teacher—Yes, my boy.
Willie—Then a bullet must be a small bull.—Boston Globe.

EXPERT TO INVESTIGATE.

Scientist Will Observe Earthquake Results on Masonry Structures.

In order to investigate the effect of the earthquake shocks in San Francisco on concrete and other structural materials, Director C. W. Walcott of the geological survey has ordered L. L. Humphrey, expert in the structural materials testing laboratory of St. Louis, to proceed to California, says the Washington Post.

Owing to the possibility of similar seismic occurrences in portions of the west in which the reclamation service is constructing great masonry dams and structures of concrete a careful investigation of the effects of the recent earthquake will doubtless afford much valuable information.

Indiana Feared Shocks.

C. W. Bond, a prominent manufacturer of Toledo, O., who lived in San Francisco in 1853, told recently that when he was there and his brother was in the commission business several Indians and Mexicans addressed a public meeting one night, telling that while the city was a grand and beautiful one that they were in daily danger from earthquakes.

They implored the white people not to build any structures more than two stories high. In conformity with the tradition Mr. Bond's company erected a warehouse two stories high with walls two feet thick.

A Unique Society.

A movement has been started by Lewis N. Debnitz, a lawyer, of Louisville, Ky., for the formation of a society to help eliminate wrecks from the future-history of the railways, says the Cleveland Plain Dealer. He is gathering names of persons interested in all parts of the country and will declare the society organized when 100 names have been obtained. The objects of the movement are, first, to educate the traveling public to prefer safety to speed in trains, and, second, to strive with railway managers to obtain greater care from employees.

Shock Recorded in Italy.

The New York Herald's European edition published the following from its Milan correspondent: The earthquake at San Francisco was recorded at 2 o'clock the afternoon of April 18 by the seismic instruments at the astronomical observatory near Florence. Some of the instruments were damaged by reason of the violent and repeated shocks.

MR. KOCHENDORFER

Writes From Pacific Coast, Telling of the Earthquake—Has Only Praise for the West.

Clerk of the City Council, L. B. Munch received a letter Monday from Charles Kochendorfer, a former Newark boy, who is at present enjoying ranch life in Southern California. Immediately after the earthquake in Frisco, Clerk Munch sent a postal card to Mr. Kochendorfer asking him to write a descriptive letter of the earthquake. A part of the letter is given below:

"I will tell you all I can about that 'Frisco earthquake, but as I am 500 miles south of San Francisco, I probably know as little of the actual horror as yourself. It is certainly a great calamity. The beautiful city of San Francisco is no more. The city, like Chicago, will rise from its ashes in greater splendor than before, but there were destroyed other things which cannot be replaced, things of uncountable value. This is especially true of Stanford university. Los Angeles and surrounding country, in fact the whole state seems to have dropped work of all kinds and turned attention to the relief of San Francisco. Money, food and clothing are pouring in from all directions. A train load of supplies from New Mexico and hundreds of cars from all over the state, each family providing a temporary home for whom it can accommodate so that now they have the situation pretty well in hand. We had two or three little quakes here last week, but they caused no disturbance. I noticed one in particular just at bed time which raised my bed, the sensation feeling as though someone were under the bed raising it. Not much attention is paid to a slight shock like that, as they occur with more or less frequency, and indeed it was not the earthquake which was wholly responsible for the destruction of San Francisco. ★ ★ Californians will take their chances with an occasional upheaval of terra firma in preference to wrestling with one of those roaring, twisting cyclone zephyrs of the East, for in all the history of California, and in fact the whole Pacific coast, down to the day of the San Francisco catastrophe less in July to property and less loss of life had been inflicted by earthquakes than has often been caused by a single tornado in the east. And, as has been said, most of the damage in San Francisco was caused by fire. The history of California dating back a century fails to record a quake as serious as the late shake. Write often and tell me what's the news."

"Yours very truly,

"KOKE."

HAPPENINGS IN TOWNS NEAR NEWARK AND GENERAL NEWS OF BUCKEYE STATE

Climb Damages.

Cincinnati, O., April 30.—Suit for \$10,000 claimed as damages on the ground of defamation of character was filed for Simon Krug against William F. Putthoff. The action grows out of the Drake committee's investigation into the alleged bridge companies' combine. Mr. Krug in his petition declares that when Putthoff, in his testimony said that "Simon Krug engineered the deal" by which seventeen bidders pooled issues, he testified falsely and for the damage Krug asks \$10,000.

Jury Criticizes Officials.

Springfield, O., April 30.—The Clark county grand jury returned an indictment for first degree murder against Edward Dean, colored, who killed M. Davis of Columbus, in this city on the night of February 26, last, and follows this with a sweeping arraignment of county and city officials for their alleged utter incompetence in handling the riots, which grew out of the Davis murder. Preston Ladd, Dean's accomplice, was indicted for cutting to kill and wound.

Work of Lightning.

Springfield, O., April 30.—At New Moorefield, the Huffman house, one of the best buildings in the village, was destroyed by lightning. It is a total loss and only the downpour of rain saved the other property. The barn of Daniel Nissley at North Hampton was also burned. It was a big structure and the loss is heavy. A daughter of the farmer, who is ill, single-handed, saved from the burning barn five head of horses.

Against Standard Oil.

Toledo, O., April 30.—Ouster proceedings were filed in circuit court here against the Standard Oil company and 17 affiliated companies, including oil and pipe line companies, Lake Shore railroad, Hocking Valley, Toledo and Ohio Central, Pennsylvania company. The court was asked to dissolve their franchises and appoint trustees for creditors and stockholders.

Governor Pattison.

Cincinnati, O., April 30.—Dr. Holt and Oliver, Governor Pattison's physicians, declared that in spite of the governor's pleadings, they will not allow him to be removed from the hospital now. To take the governor to Milford now, the doctors said, would be taking chances, should bad weather set in. He will have to remain at the hospital at least a week longer.

Captured in Michigan.

Columbus, O., April 30.—C. A. Taylor, alias Charles Lowrey, an escaped convict from the Ohio penitentiary and known as a dangerous criminal, was safely landed behind the bars here again, having been brought from Michigan to serve nine years and six months remaining from a ten year sentence for burglary and larceny.

Car Barn Burns.

Bowling Green, O., April 30.—The car barn and all of the rolling stock owned by the Lake Erie, Bowling Green and Napoleon Railway company, were destroyed by fire. The loss was \$22,000, partially covered by insurance.

Race for Congress.

New Philadelphia, O., April 30.—The Tuscarawas county Democratic Central committee decided that former State Senator E. Hurst, of this city, shall name his own delegates to the congressional convention to be held here June 6. The other candidates are Judge J. H. Mitchell of this city, Representative E. S. Wertz of

Wooster, and Representative William A. Ashbrook of Licking county. Mr. Hurst was defeated for Congress two years ago by Judge Smyser of Wooster.

Hurt in Auto Accident.

Columbus, O., April 30.—C. D. Firestone, president of the Columbus Buggy company, and wife, were thrown from their electric automobile as it overturned after striking a telephone pole last evening. Mrs. Firestone sustained severe bruises on the nose and other parts of the body, but was not seriously injured. Mr. Firestone escaped with a general shaking up. The front of the machine was badly smashed and damaged to the extent of \$300.

Unknown Man Drowns.

Zanesville, April 30.—An unknown man was found in the Muskingum river Sunday afternoon. It is thought he was struck by a train on the trestle and fell into the river.

Death at Zanesville.

Zanesville, April 30.—Mrs. Mary E. Bowers, wife of Jacob Bowers, of the Frazesburg road, died Sunday as the result of an operation performed on Friday evening. The deceased was aged 62 years.

Chas. Bush Killed.

Dennison, O., April 30.—Charles Bush, aged 40, a section man on the Pan Handle, was struck and killed by a freight train in front of his home near Rowersburg.

Zanesville Boy Drowns.

Zanesville, O., April 30.—Simon Bugglin, a 15 year old boy, fell from a shanty boat and was drowned Sunday. The body of an unknown man was taken from the river about three miles below the city.

Wouldn't Bake Pies.

Delaware, O., April 30.—Because his wife was too indolent to bake pies Charles E. Morris secured a divorce before Judge Coyner here Saturday.

Sensational Escape Recalled.

Columbus, O., April 30.—Warden O. B. Gould expects to experience some trouble in landing A. C. Taylor alias Charles Lowrey, a member of the "Blinky" Morgan gang, who is under arrest at Alpena, Mich., as an escaped convict. Lowrey was sent to the penitentiary on May 16, 1901, to serve 10 years for robbing a bank. In the following November he was sent on a trial at Canton, and was sent there in charge of Guard George Bowman. On the return trip near this city some one threw red pepper in the eyes of the guard, and Lowrey and his pal jumped from the train and escaped. Two guards have been sent to Michigan to bring him back.

Mama Said No.

Zanesville, O., April 30.—The wedding of Miss Mary Smith and Charles E. Cato was to have been celebrated last week. The invited guests assembled at the home of the bride's parents in the evening to witness the nuptials. At the hour set for the ceremony, however, the groom had not appeared. He failed to put in an appearance at all, and the guests returned home. A messenger was sent to the Cato home to ascertain the reason for his non-appearance, and the reply was made that his parents objected, and he guessed he wouldn't get married.

Delaware's Oldest Woman.

Delaware, O., April 30.—Mrs. Cath-

erine Baker, the oldest woman in Delaware county, died suddenly. She was 105 years old and until the day before her death had always declared she did not know what sickness was.

Miner Asks Damages.

Coshocton, O., April 30.—Alonzo Jackson, coal miner, has filed suit for \$5,000 damages against Thomas Lear & Son, mine operators. The complaint alleges that the roof of the company's mine fell on him, he receiving a broken arm and shoulder blade. A new mine, owned by John Williams and John C. Adams, known as the Locust Grove mine, is to be opened early in May. This will be a machine mine and it is understood that the 1903 scale will be signed by the operators.

Memorial Held For Dunbar.

Springfield, O., April 30.—An elaborate memorial meeting for Paul Laurence Dunbar, the negro poet, was held in the city hall Sunday.

Pythians to Build Temple.

Dayton, O., April 30.—Iola lodge, Knights of Pythias, has negotiated for the purchase of an uptown corner lot upon which to build a Pythian temple. The price of the lot is \$20,000.

Canton Wants State Convention.

Canton, O., April 30.—The Democratic central committee of Stark county, in conjunction with the Canton board of trade, will make an effort to bring the state Democratic convention to this city.

Will Try Fee Cases at Once.

Youngstown, O., April 30.—The cases against the county officials for drawing alleged excessive fees will be prosecuted at once at their request. The case against County Clerk J. Howard Edwards, at his request, will be begun first.

Highest Bidder Gets Hanna Home.

Cleveland, O., April 30.—Glenmore the beautiful Lakewood home of the late Senator Hanna will be sold before the end of the year. Mrs. Hanna will live in Washington. The price asked ranges into six figures.

Drop by drop the offensive discharge caused by Nasal Catarrh falls from the back of the nose into the throat, setting up an inflammation that is likely to mean Chronic Bronchitis. The certain, rational cure for Catarrh is Ely's Cream Balm and the relief that follows even the first application cannot be told in words. Don't suffer a day longer from the discomfort of Nasal Catarrh. Cream Balm is sold by all druggists for 50 cents, or mailed by Ely Bros., 56 Warren street, New York. mwf-tf

FELL FROM BOAT IN BUCKEYE LAKE

Assistant Postmaster Siegfried Has a Plunge While out Rowing on Lake Sunday.

Assistant Postmaster S. E. Siegfried had a narrow escape from drowning at Buckeye Lake Park Sunday afternoon which was little short of miraculous.

The assistant postmaster, together with a lady and gentleman from the Capital city, went on the water for a row. The party experienced no trouble until Mr. Siegfried attempted to change his position in the boat, when to the horror of his companions, he fell into the water. It was feared that Mr. Siegfried would drown before help could reach him as the water at this point is quite deep. His cries for assistance could be heard for a long distance. The other man of the party went to Mr. Siegfried's assistance, and Mr. Siegfried is suffering no ill effects of the cold plunge.

Clean cellars tomorrow.

HALF A MILLION

Paid for a Big Tract of Ohio Coal Land—To Compete With the Combine.

Wheeling, W. Va., April 30.—A tract of 23,000 acres of coal land in Monroe county, Ohio, extending from Clarington on the river 10 miles back, optioned to John A. Howard and S. W. Harper, of Wheeling, has been sold to Pittsburgh and Uniontown, Pa., capitalists, headed by George Hibbs and Colonel J. V. Thompson, the purchase price being very close to half a million dollars. The sale means the opening of big mines along the river front, the object of which will be to compete with the Pittsburgh Coal Combine, for the river trade. It may mean also the first step in the fight against Frank L. Robbins for his alleged treachery at Indianapolis. Burton, Beidler and Phillips of Cleveland, are closing up options on 16,000 acres in the same county.

Clean your premises tomorrow.

Before you slip see Tucker. 12dtf

OHIO WITNESSES

Returning from Buffalo Saw a Gun Play on the Train That Will Call Them Back.

Marysville, O., April 30.—Benjamin and J. I. Myers, brothers, while returning home from Buffalo, where they were witnesses in a damage suit wherein a street car collided with a trolley, killing two and seriously injuring several others, they having been eye-witnesses, will no doubt be recalled to that place soon again. They witnessed a sensational shooting affray while returning home. Their names were taken by the authorities, and they will be summoned if any court action follows.

Benjamin Myers while on a visit to the St. Louis Exposition was one of the few witnesses of a daring theft which caused the perpetrator's arrest after a chase of across the continent. A valuable trunk was stolen and Myers was called to Austin, Texas, as a witness.

Clean back yards tomorrow.
